

NSF GRANTS WORKSHOP

Dr. Jim Wicksted, Associate Director
Oklahoma EPSCoR
May 17, 2012

WHAT IS EPSCoR?

*Experimental Program to Stimulate Competitive
Research*

EPSCoR is a merit based science and technology (S&T) initiative to improve the research capacity capability and competitiveness in states that historically have not received significant federal research and development (R&D) funding.

EPSCoR Mission

To assist NSF in its statutory function to strengthen research and education in science and engineering throughout the United States and to avoid undue concentration of such research and education.
